

ProgettoWood

**A UNIQUE
NEVER
SEEN' BEFORE
RANGE OF
PREMIUM
VENEERS**

ProgettoWood

ProgettoWood is a premium range of veneer formed by poly - fibre grains, overlaid on a decorative veneer, pressed on a Gurjan matt with a coating of epoxy sealer.

This is the latest offering from the house of CenturyVeneers - an industry first.

KEY FEATURES & USP:

- **Design** – Exclusive hi-end veneer with exotic grain designs that cannot be easily found in natural veneers.
- **Pre-coated/Ready to Polish** – ProgettoWood comes pre-coated with a layer of epoxy sealer:
 - a. This enhances the grain design thereby rendering a super-premium look.
 - b. Since it comes with a layer of epoxy sealer, it saves on time as well as cost, since it can be taken to polish straightaway.
 - c. It protects the veneer surface from any kind of handling damages.
 - d. The epoxy sealer is compatible with all kinds of polishes which are Melamine, PU and Polycoat.
- **Gurjan Matt** – ProgettoWood veneers come with a 4 mm BWR Gurjan matt base. This makes the veneer naturally resistant to borer and termites.
- **Warranty** - CenturyPly provides a warranty of 7 years on this range of veneers against borer and termite attack.¹

Technical Parameters:

- Base Ply – Gurjan²
- Thickness – 4 mm
- Grade- Boiling Water Resistant
- IS:1328 complaint
- Glue Line Protection
- Borer and Termite Resistant
- Anti – bacterial
- 7 years warranty from borer and termite resistance

1) Standard terms & conditions apply.

2) Also available in hardwood base ply

APPLICATIONS

Wall Panelling ● Doors ● Table Tops ● Wardrobes ● Headboards ● Highlights

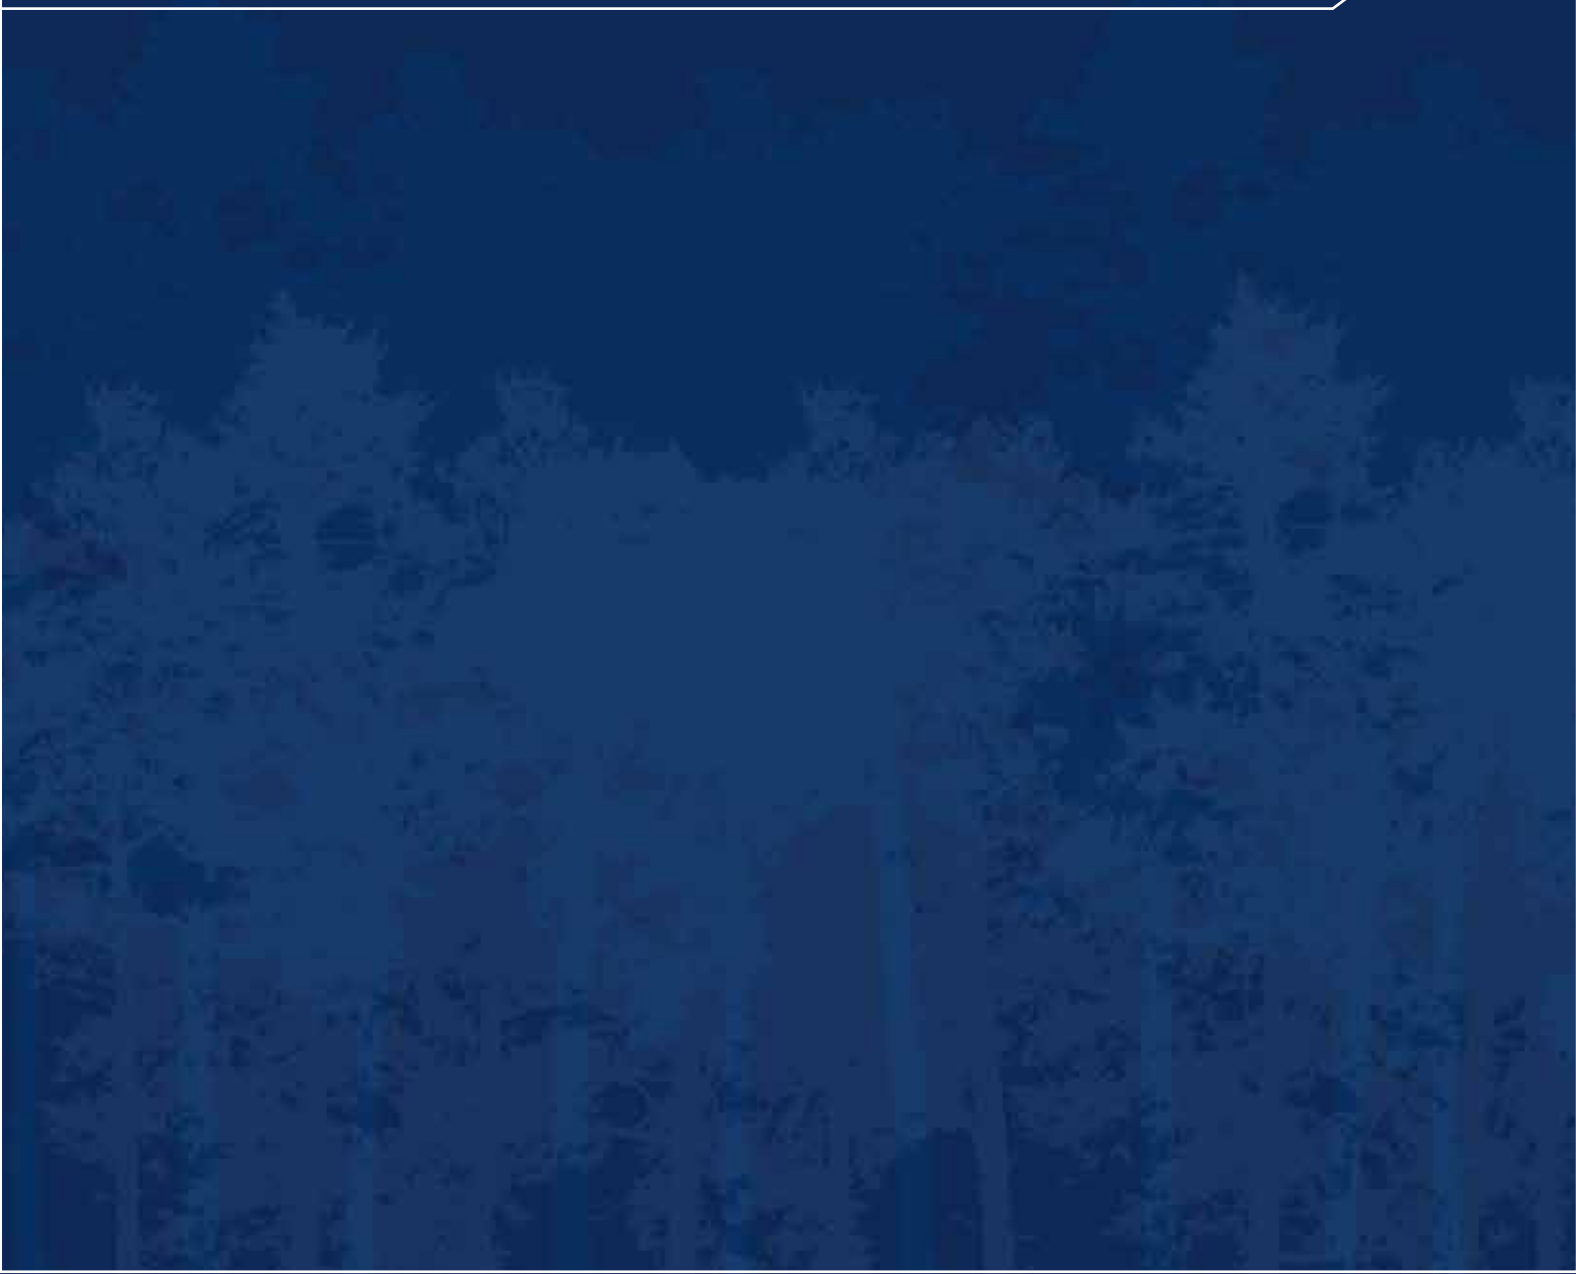

POLISHING

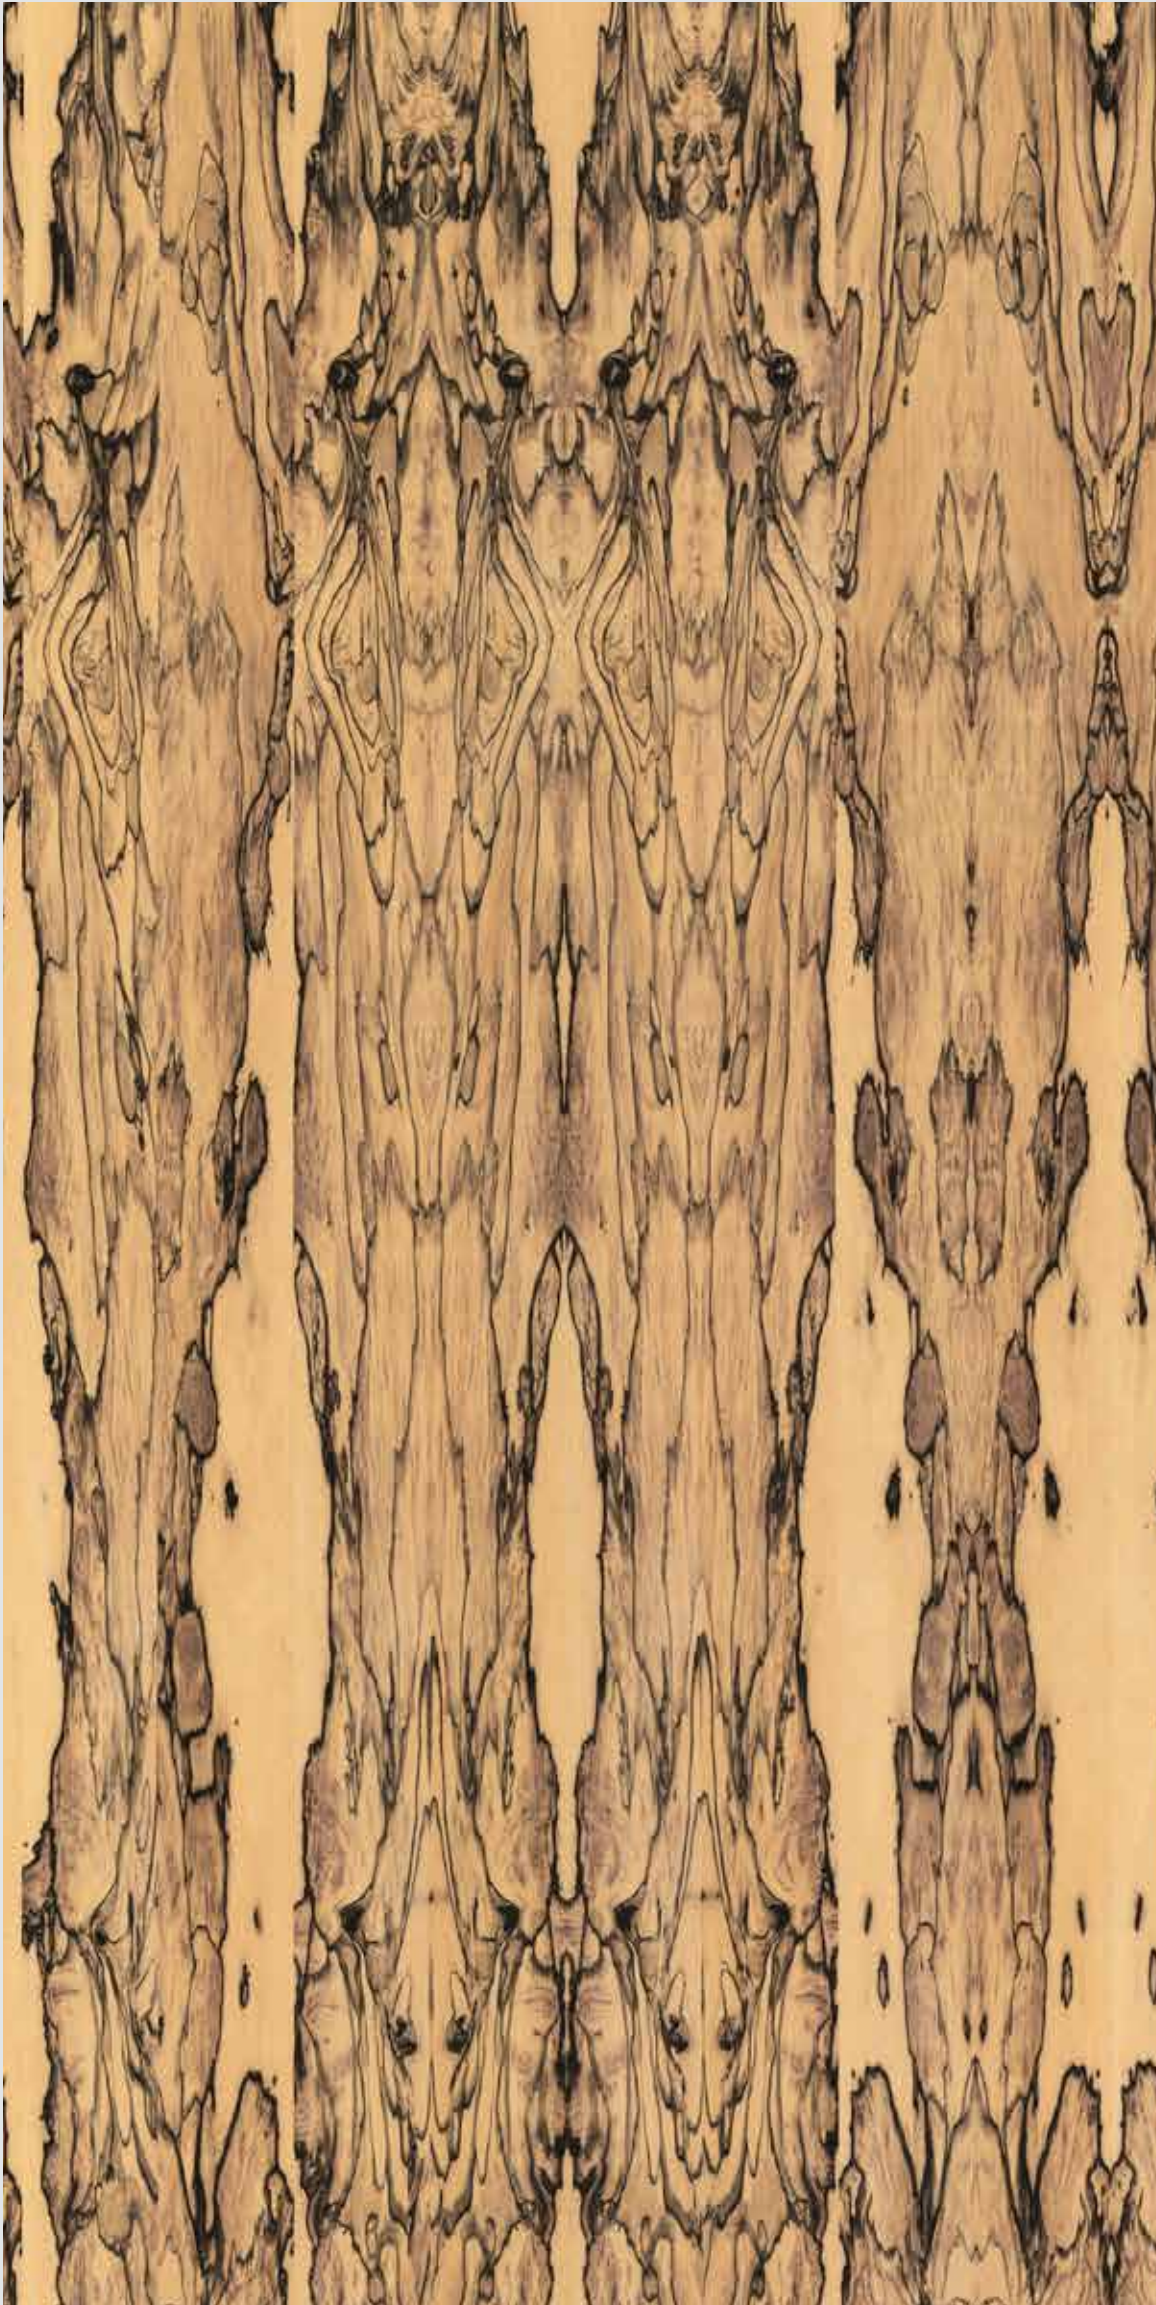

ProgettoWood is coated with a special kind of epoxy sealer of a reputed brand. It is an all-purpose sealant which is compatible with all kinds of polishes which are Melamine, PU and Polycoat. Polishing process of ProgettoWood is the same as the standard method followed for any other veneer in the market. This is a ready to polish product. This is not to be sanded.

ROYAL EBONY CRÈME

Royal Ebony Crème is a super-rare species almost to the extent of being an endangered species. As a result this species commands a very high premium. Progetto Wood Royal Ebony Crème presents you the best designs of this species which showcases the unique cream to dark tan tone with dark brown and black streaks creating a magnanimous pattern on the overall sheet rendering an accent to the interiors.

ZIRICOTE

Ziricote is unlike any other species. The complexity of grain patterns is mindboggling. Through our Progetto Wood range of poly-fibre veneers we bring to you premium Ziricote designs which have hallmark reddish brown to gun metal grey to almost black heartwood and veined black lines that streak across the veneer in the most amazing patterns. The contrast of heartwood and sap is a feature that makes these designs exquisite.

SANTOS

Santos is a Brazilian species by origin with a distinct and unique character of its own. Our Progetto Wood range of poly-fibre veneers features the best designs of Santos by showcasing a wide variance in colour from light tobacco to dark Violet with a mixture of crown, straight grains and thin strips of sap. Once in a while the crown can display the remarkable "Oyster" grain pattern which is rare now but captured in our Progetto Wood Santos designs.
