

PRESENTS

Dear Partner,

Let me begin by thanking you for your continuous support that you have bestowed upon us through all these years.

To make this partnership even more exciting and fruitful we have come up with the idea of participating in Aces of Spaces Design Awards 2023.

Architect & Interiors India Aces of Space Design Awards 2023 will pay tribute to the architectural projects, interior design firms and designers making their mark in India. As befitting an industry no longer in its infancy, the awards will hail work that displays original thinking, creative breadth and a willingness to stray from tried and tested formulae.

Under this glamorous umbrella, Century Ply Decorative Design Awards aims to provide architects and interior designers with an opportunity to showcase their creative vision across multiple categories – designing a space from scratch that spotlights an imaginative use of veneers. And the reward? A chance to have your work graded by an award-winning jury and be felicitated at the glittering awards night in Mumbai, graced by eminent names in the industry across the nation.

We are now inviting nominations for the Century Ply Decorative Design Awards for Natural Veneers from the house of CenturyPly under the prestigious Architect & Interiors India Aces of Space Design Awards 2023. You are among the few handpicked architects eligible to nominate yourself, on the basis of your excellent work!

I am sure this program will excite your passion for designing and will further strengthen our bond in the future ahead.

See you in Mumbai soon!

Thanks and Regards,

ADITYA GUPTA
