GLP
(Glue line protection for Borer and Termite Proof)

8 Years warranty

One India One Price

■ Why is SAINIK 710 called Asli Waterproof plywood?

In the market there are a lot of local plywood that claim to be waterproof, but they are mostly dipped plywood or resemble waterproof ply. But these local plywood do not have the most important characteristic of Waterproof ply and that is being Boiling Waterproof (72 Hrs. Boiling Water) test. **Only SAINIK 710 from the house of CenturyPly passes the 72 hours boiling water test under specified laboratory condition.** This is what makes Sainik 710 Asli waterproof Plywood.

■ What is the price of Sainik 710 waterproof plywood and why is it relevant?

Sainik 710 is sold at a competitive price of Rs.102/ Sqft (inclusive GST). It beats the local brands being extremely value for money. Because of which they cut into the Raw material specially the GLUE and hence local brand dose not demonstrate the properties of boiling water proof ply. Sainik is the champion when it comes to being Asli waterproof.

■ What is dipped plywood? Why do local brands sell dipped plywood as waterproof?

Dipping is a process in which plywood is dipped/ passed through a coloured solution which is applied on the surface of the ply. This gives it a darkish colour. Darkish colour is basically correlated to waterproof ply in general terminology in Trade market and this is majorly because of Phenol resin which is darker in colour. This is how local brands establish selling point for Water proof ply even without using substantial or no quantity of Phenol resin.

■ What is the application of SAINIK 710?

SAINIK 710 is best suited for indoor furniture like **Beds, Dining table, wardrobes, shelves & Modular.**

■ What comes under Sainik 710's 8 years warranty?

SAINIK 710 is assured with **8 years warranty on Borer & termite**

■ What are the sizes & thickness SAINIK 710 is available?

SAINIK 710 is mainly available in sizes: **8x4, 8x3, 7x4 & 7x3**

With thicknesses: **4mm, 6mm, 9mm, 12mm, 16mm & 19mm**

■ Does SAINIK 710 come in blockboard too?

Yes SAINIK 710 is available in **19 mm for Blockboard.**

■ Which is the best waterproof plywood?

Sainik 710 is considered the best waterproof plywood.

■ What are the different grades of plywood?

There are three distinct grades of plywood - MR, BWR, and BWP. If you are looking for waterproof plywood, BWP grade is the best option.
