ABOUT COMPANY

CenturyPly has always been a flag-bearer of innovation, delivering and designing contemporary lifestyle statements that enrich modern living.

Founded in 1986, CenturyPly Boards (India) Ltd. came into existence through the foresight of two visionaries, Mr. Sajjan Bhajanka and Mr. Sanjay Agarwal. Since then, the company has taken giant strides to become the largest seller of multi-use plywood and decorative veneers in India's organized plywood market.

CenturyPly is the preferred choice of architects and interior designers, transforming ordinary steel and concrete structures into unique expressions of personality.

ABOUT NAP DIVISION

- The NAP Division was established in 2015 to bring new and innovative products to customers
- The division introduces a new generation of building materials, including PVC/WPC boards, PVC/WPC doors, and WPC door frames
- These modern products are more energy-efficient and help conserve natural resources, such as the wood traditionally used in plywood
- Versatile and reliable, these products serve as an excellent alternative to plywood
- PVC and WPC boards are easy to install, highly durable, and enhance the interior aesthetics of any home
- Recognized and widely appreciated by leading institutes and prestigious projects across India
- 100% Made in India products with first factory at Kadapa District, AP. The factory is equipped with 10 highly automated production lines
- Production capacity of 1,000 tonnes per month
- Customised products for high potential projects

FROM THE BUSINESS HEAD'S DESK

CenturyPly is a leading player in the plywood industry and the largest seller of multi-use plywood and decorative veneers in India's organized plywood market.

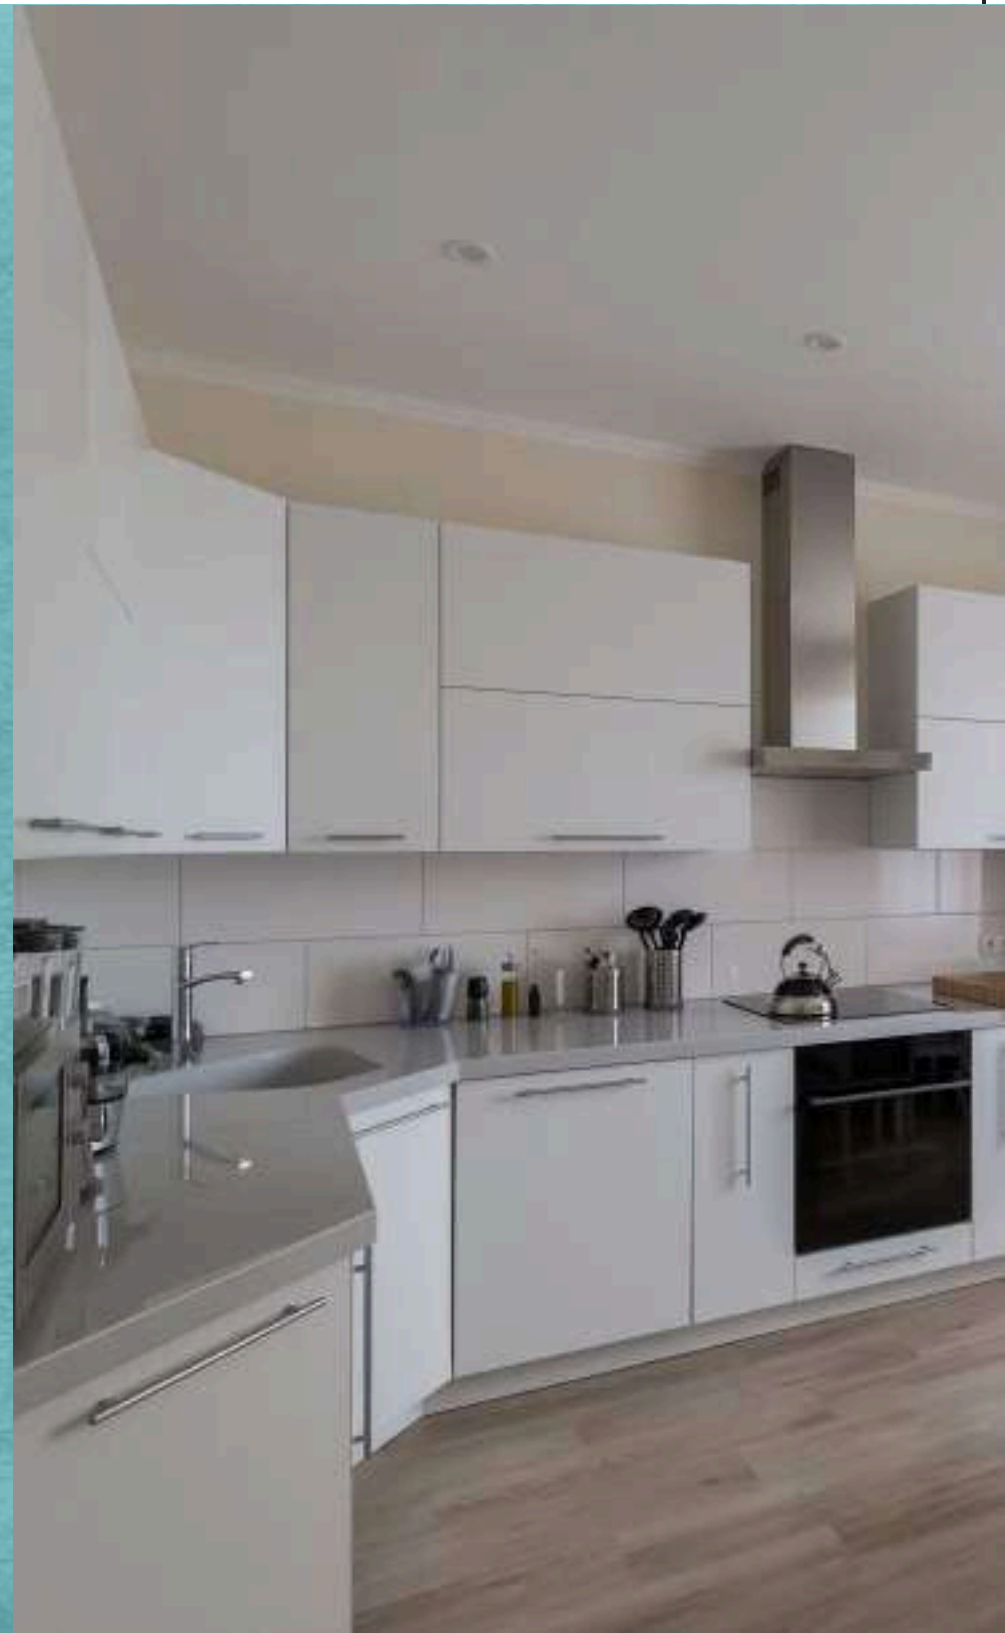

Today, we are a one-stop manufacturer of a wide range of plywood and related products, offering international quality and top-tier service in the industry.

Under our NAP Division, CenturyPly introduced eco-friendly and durable engineered products, including PVC/WPC boards, as sustainable alternatives to traditional wood. Century WPC is a chemically foamed, rigid, lightweight extruded board with a fine, homogenous closed-cell structure and a smooth matte finish on both sides.

We are committed to delivering world-class products with prompt, reliable service. Our polymer products are highly versatile, suitable for residential, commercial, and exterior applications. They are termite and water proof, backed by a 100% quality guarantee.

Our extensive network spans the Nation, ensuring prompt service to our valued customers, including homeowners, architects, and designers. We are proud to have completed numerous prestigious projects across India.

At CenturyPly, we live by the motto "Sarvada Sarvottam" – always the best. Our dedicated customer service team is committed to delivering nothing short of excellence. We owe our success to our loyal and trusted customers, who deserve only the highest standards from everyone at CenturyPly.

WHY CHOOSE PVC/WPC?

You invest time and money to make your home beautiful and inviting—why let that effort go to waste? Ordinary plywood furniture lacks protection against termites and borers and offers no quality guarantee.

This happens due to the following reasons:

- Furniture made of pre-mature plywood
- No treatment done for borer, termite and waterproofing
- Non-seasoning

So choose wisely. Choose Century PVC/WPC –

A product that is 100% borer, termite, and waterproof.

FEATURES

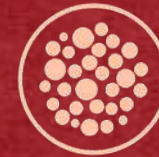

100% Termite and Borer Proof

Resistant to pests enhances durability and longevity, ensuring a long lifespan.

100% Waterproof

No shrinking or swelling in wet conditions, preventing warping and cracking.

Graded Density

Provides superior strength and secure screw retention for stability.

Smooth Surface Finish

Simplifies maintenance and cleaning with a smooth surface, ready for immediate use.

100% Recyclable

Reduces waste and environmental impact through full recyclability.

No Shrinking and Swelling

Boards do not change shape from heat or water, ensuring best aesthetics for life.

Design Flexibility

Allows for customization with easy cutting, painting, and lamination.

CNC Cutting-Ready

Boards are ready for CNC cutting, enabling for a plethora of designs limited only by imagination.

CENTURY PVC/WPC APPLICATIONS

Doors

False Ceiling

CNC Cutting

Digital Printing

Panel & Partitions

Kitchen & Wardrobe
Backliner

Bathroom Vanity

Modular Kitchen

Home Furniture

Office Furniture

KEY AREAS TO PROTECT FROM WATER & TERMITE

KITCHEN – Water damages wood-made furniture and termite reduces the life of wood furniture. WPC is 100% waterproof and termite-proof.

BATHROOM AND WASHBASIN – Exposed to water 365 days causing swelling of door that leads to the high probability of delamination.

WARDROBE AND BACK LINER – Due to porosity in cement walls, moisture rises in the wall and damages the wardrobe from the back.

DOOR & FRAME – Extraction and contraction happen due to weather changes. That, in return, cause and increase the chances of cracks.

CNC Application – False Ceiling – Century WPC/PVC solves cleaning and maintenance challenges and is suitable for all types of climates. It is one of the most hassle-free and easy-to-install options available.

PRODUCTS

CENTURY PVC/WPC

Century PVC - Board is made with virgin polymer reinforced with Calcium Carbonate, which gives an excellent finish and unparalleled strength. Virgin polymer has 60 - 65% polymer content, 20 - 25% Calcium Carbonate and 10 - 15% additives. The role of polymer is to hold the screw, while the Calcium Carbonate gives it strength and the additives help in mixing, foaming hardness and other desired properties.

Product list:

Platinum 710 Plus | Prime | Select | Neo | Grey | Sainik

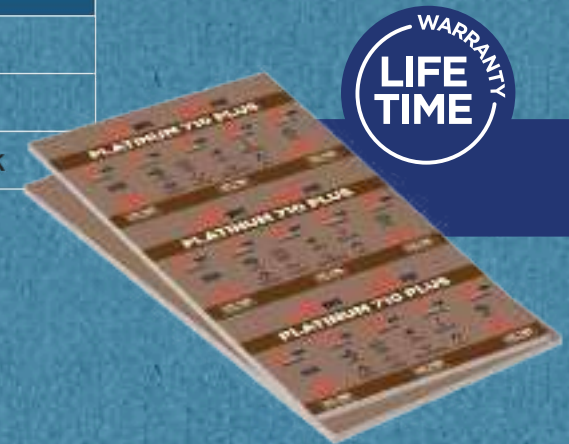

CENTURY WPC PLATINUM 710 PLUS

Platinum 710 Plus Century WPC Board, a premium solution crafted to meet the highest standards in quality and durability. Designed especially for all-weather resilience, Platinum 710 Plus is 100% waterproof and termite-proof, offering unmatched performance for interior applications. With a high-density composition, this WPC board guarantees long-lasting structural stability and resistance to wear, making it ideal for a variety of uses in cabinetry, wall cladding, furniture, and partitions.

Parameter	Description
Thickness (mm)	6, 8, 12, 15, 17, 18
Size (feet)	8 x 4
Application Area	All kinds of furniture work

CENTURY PVC PRIME
