INTERIOR LOUVER COLLECTION

Enhance. Enchant.

FEATURES

**High-Density Louvers**  
Durable and sturdy panels.

**Superior Finish**  
A highly automated manufacturing process ensures that the panels have a superior finish and dimensional accuracy. The interlocking design provides a seamless finish when installed.

**Robust & Impact Resistant**  
A thicker film, along with stronger film adhesion, ensures that the surface is impact-resistant and prevents delamination. The surface of the panels can withstand minor impacts without any wear and tear.

**100% Waterproof**  
The panels are waterproof and moisture-resistant, so they won't warp or swell when exposed to moisture.

**Stronger Film Adhesion**  
The film is bonded to the base using a special combination of adhesives, making it long-lasting.

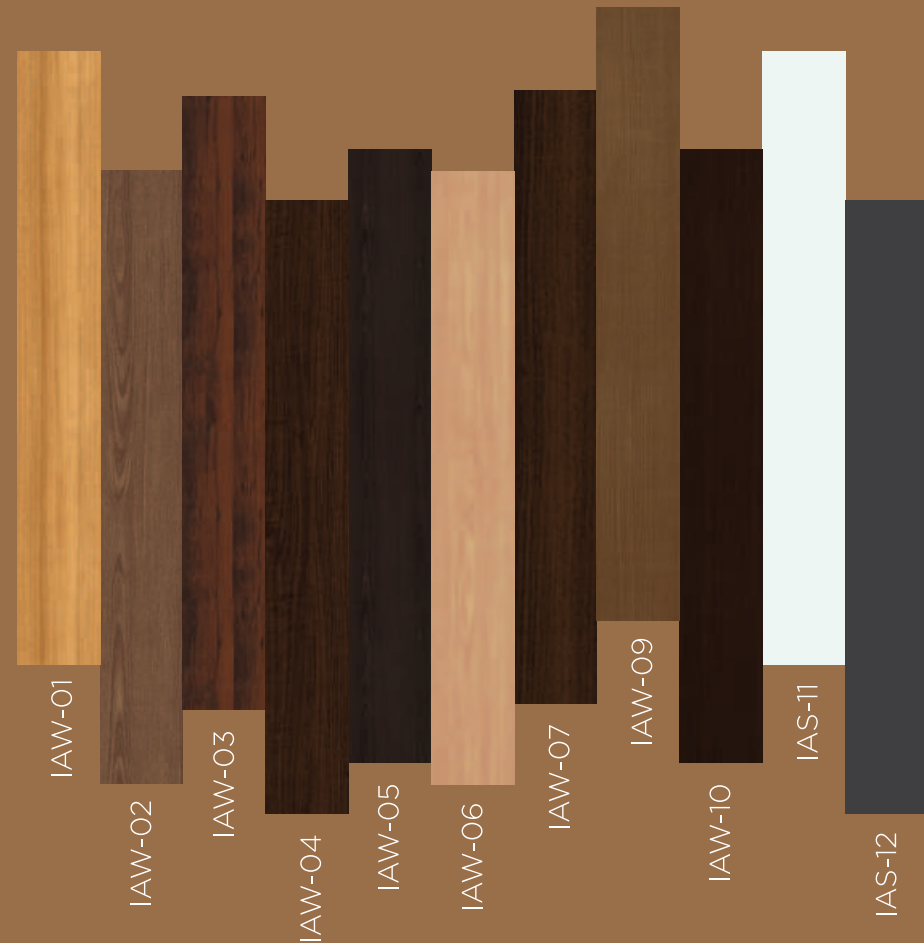

**100% Termite & Borer Proof**  
These panels are resistant to termite and borer attacks.

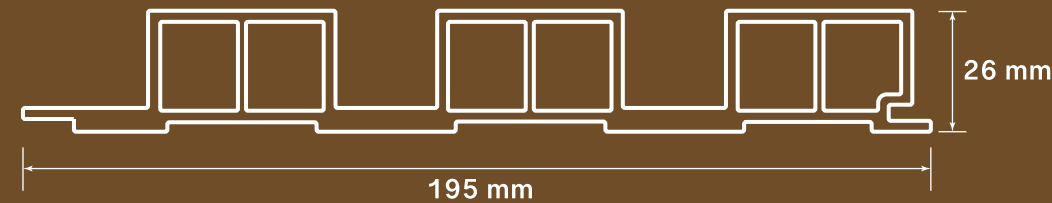

TEXTURES

The WPC Louver Panels feature a stunning array of textures that offers endless design possibilities. These meticulously crafted textures not only enhance visual appeal but also add depth and character to any space.
